

Michele PEZZONI

MCF

Université Côte d'Azur, CNRS, GREDEG

I am currently associate professor (MCF) at the University of Nice Sophia-Antipolis, research fellow at ICRIOS, Bocconi University and at BRICK, Collegio Carlo Alberto. In 2014 I was recruited as senior research scientist in the STARMETRICS project. From November 2013 to September 2014 I was postdoctoral fellow at Chair of Economics and Management of Innovation, École Polytechnique Fédérale de Lausanne, Switzerland. From July 2012 to November 2013 I was postdoctoral fellow at Milano-Bicocca University, Department of Economics. From December 2011 to December 2012 I worked as research fellow at OST (Observatoire des Science et des Techniques), Paris. From December 2010 to May 2011 I was postdoctoral fellow at the University of Brescia, Department of Economics. Finally, from December 2005 to November 2006 I was research assistant at the University of Brescia, Department of Engineering.

My current research interests include innovation and economics of science. In particular, I am interested in the empirical analysis of scientists' productivity, career, teaching quality, and propensity to engage in technology transfer activities. I am attracted by all methodological aspects functional to my research work such as, the study of specific econometric problems, data quality issues, simulation, and network analysis. I received my Ph.D. in Economics and Technology Management from University of Bergamo in 2010 with a dissertation titled "Productivity, Career and Collaboration in Science: Three Studies on French and Italian Physicists". I received my master degree in industrial engineering with a dissertation titled "Evolution of pharmaceutical industry in a dynamic simulation model".

I taught the following courses in different universities at master and bachelor level: Empirical Analysis of Regional Dynamics, Economics and Management of Organizations, Microeconomics, Industrial Dynamics, Data Analysis, Economics of Innovation, Industrial Economics, Empirical Economics, Econometrics, and History of Economic Crises.

Autres responsabilités exercées

From June 2009 to September 2013 I was the coordinator of the project "Academic Patenting in Europe" (APE-INV) funded by European Science Foundation. In 2015 I was one of the organizers the 4th international conference "Governance of a Complex World". Since 2015 I am one of the the organizers of the summer school "Knowledge Dynamics, Industry Evolution, Economic Development".
