

You are here : About us **An organisation by activity**

An organisation by activity

To ensure the quality of its work, the organisation of Hcéres is based on a Board of 24 French and foreign members who define the general framework for its action. Eight departments organised by activity and a General Secretariat coordinate evaluation campaigns and missions and provide functional support for the organisation.

Each year, 3,500 experts are mobilised to conduct the evaluations with the support of scientific advisors/project managers and administrative staff.
