European degree label

Published on 8 February 2024

Review of Hcéres' participation in the meeting of European evaluation agencies to improve the European diploma label.

Hcéres is taking part in the project launched by the European Commission in 2022 to make it possible to issue a European diploma label.

The project consortium in which Hcéres is a partner, [ED-AFFICHE](#) , is made up of [six European University Alliances](#)  ([Una Europa](#) , [CHARM-EU](#) , [EU-CONEXUS](#) , [4EU+](#) , [EC2U](#) , [Unite!](#) ) representing 51 higher education institutions from 22 countries, 18 national and regional ministries responsible for higher education and 15 national evaluation and accreditation agencies.

Since 2022 and on the occasion of the working meeting of 7 February 2024 with its counterpart agencies, Hcéres has actively participated in the improvement of the criteria associated with the European Diploma Label, has co-developed recommendations on the possible evaluation procedure, as well as on the design and delivery of the future European Diploma Label.

In particular, Hcéres advocated that evaluation agencies should play a full role in the review of the criteria and in the award of the European Diploma Label.
