Evaluation of institutions

The institutional evaluation organised by Hcéres analyses the institution’s governance and policy regarding research, commercial development, training, student life and external relations. Particular attention is paid to the institution’s quality policy. This evaluation also enables judgements to be made about the coherence of the institution’s strategic focuses.
250 institutions (of which 75 universities and schools, 39 engineering schools and 17 research bodies) evaluated every 5 years

50 evaluation reports produced each year on average

350 experts mobilised each year on average
