

# Expertise

Guiding, assessing and analysing to support the quality of higher education and research

---

## Evaluations

---

Evaluations are central to the activity of Hcéres. Demanding and constructive, they provide a tool at the service of evaluated institutions.

## Indicators & analyses

---

Insightful analyses to contribute to the strategic thinking of stakeholders and to the evaluation of public policies.

## Scientific integrity

---

A culture and value to be shared for renewed trust between Science and Society.

## International

---

A varied range of services to provide Hcéres expertise in Europe and around the world.
