Conclusions and Perspectives

As a result of the implementation of the National Strategy for the Promotion of Science, the scientific community has been able to develop a series of projects that have contributed to the advancement of knowledge in various fields. The results of these projects have been published in scientific journals and have been presented at international conferences. The scientific community has also been able to establish collaborations with other research institutions and has been able to attract funding from the private sector.

The results of the implementation of the National Strategy for the Promotion of Science have been positive. The scientific community has been able to develop a series of projects that have contributed to the advancement of knowledge in various fields. The results of these projects have been published in scientific journals and have been presented at international conferences.
