RAPPORTS D'ÉVALUATION DES FORMATIONS

821 results

Introduction to the course

What is public health? What are the goals of public health? How do we measure public health? What are the challenges of public health? How do we address these challenges?

Public health is a discipline that seeks to improve the health of the population through the application of scientific knowledge and the development of policies and programs. It is a multidisciplinary field that draws on the natural and social sciences, medicine, and law.
