RAPPORTS D'ÉVALUATION DES FORMATIONS

2607 results

Introduction to the course

The course is designed to provide a comprehensive overview of the field of public health, covering the historical context, the current state of the field, and the role of public health in society. The course will explore the various determinants of health, the role of the government, and the impact of social and economic factors on health outcomes. The course will also discuss the role of public health in the prevention and control of disease, and the importance of community-based approaches to public health.

Introduction to the course
Master of Public Health
University of Toronto
