EVALUATION

Group B: Hcéres specifies new key dates in the evaluation schedule

Published on 12 June 2020

Further to its press release of 14 April, Hcéres has announced the new dates for the Group B evaluation schedule in a letter addressed to the institutions concerned, dated 11 June.

Under the specific circumstances of the current health crisis, the DGESIP and Hcéres have listened to the questions and wishes of the different stakeholders in Group B.

After consultation, it has been agreed that all Group B evaluations will take place over the 2020-2022 academic years, to enable the accreditation of the institutions' study programmes for the start of the 2022 academic year, on the one hand, and to maintain the contractual dialogue in 2022, on the other.

The new key dates for this evaluation campaign were transmitted to the institutions concerned in a letter dated 11 June 2020. In order to adapt to the requirements of different local situations, the Hcéres teams will contact each institution individually with a view to fine-tuning their schedules. They are now standing by to provide any information these institutions might require on this subject.
