In preparation for the 2016-2017 evaluation campaign (Group C), Hcéres met the relevant institutions during January/February at 8 meetings organised by site (Alsace site, Champagne-Ardenne site, Corsica, Limousin/Poitou-Charentes/Centre Val-de-Loire, Lorraine site, Marseille site, Nice site and Picardy site).

These meetings for information and discussion gathered over 1000 participants and provided an opportunity to present the procedures for the different evaluation types (sites, institutions, research units, study programmes) and highlight new developments and changes.

You can view the presentation materials from the various meetings below:
